ATTACKMASTER 3,4

Global ARFF Services is proud to offer the **Attackmaster 3** and **4**, Elevated Waterway Control Systems. This innovative system is built with parts that will not become obsolete for at least 10 years, and installation is simple leaving the working, reliable parts of your system unchanged. The change over is very easy, resulting in a quick learn time for operators. The operation of the nozzle and the discharge system are unchanged.

Attackmaster 4 has all the features of the Attackmaster 3 plus it uses single joystick technology and computerized touch screen controls.

Attackmaster 3

Attackmaster 4 Touchscreen

ACT II™

Attackmaster Camera Technology Thermal Imaging System uses FLIR System Inc., PathfinderIR II. PathfinderIR II is a powerful thermal night vision camera with animal and pedestrian detection that lets you see clearly in total darkness, regardless of the vehicle you're driving or the road your on. There are over 50,000 in-field, in use with proven reliability.

Wiring included to meet your needs. Direct plug & play for most **Snuzzle™** & **Rhino™** systems. Custom cables are available.

Global ARFF Services is proud to represent Oshkosh Airport Products, the world leader in aircraft rescue and firefighting (ARFF) vehicles. Oshkosh ARFF trucks can be customized to meet the specific needs of any airport, with options such as TAK-4 Independent Suspension, the Mission Control driver's environment, and the Oshkosh-exclusive Snozzle. With an Oshkosh ARFF truck, airports can respond to aircraft emergencies with confidence, knowing that they have the best possible equipment at their disposal.

Global ARFF Services understands that vehicle downtime is not an option, so we provide world-class service and support 24/7, around the globe.
